Note

Tip

Warning

A service or function is network- or subscription-dependent. Contact your network operator for details.

> Use a selection or navigation key to scroll and select. See *Navigation* on page 13.

This is the Internet version of the User's guide. © Print only for private use.

Getting started

Assembly

Before you start using your phone, you need to insert a SIM card and the battery.

To insert the SIM card

1 Remove the battery cover.
2 Slide the SIM card into its holder with the gold-coloured contacts facing down.

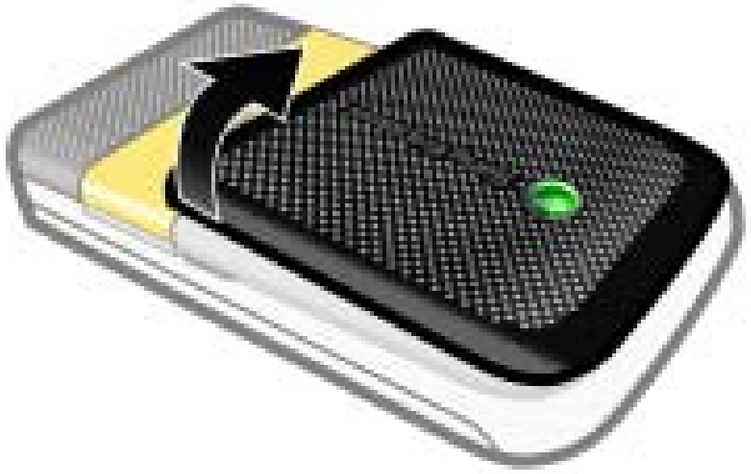
To insert the battery

1 Insert the battery with the label side up and the connectors facing each other.
2 Slide the battery cover into place.

To attach the battery cover

1 Align the tabs on the back of the battery cover with the phone slots.
2 Snap the cover into place on both sides.

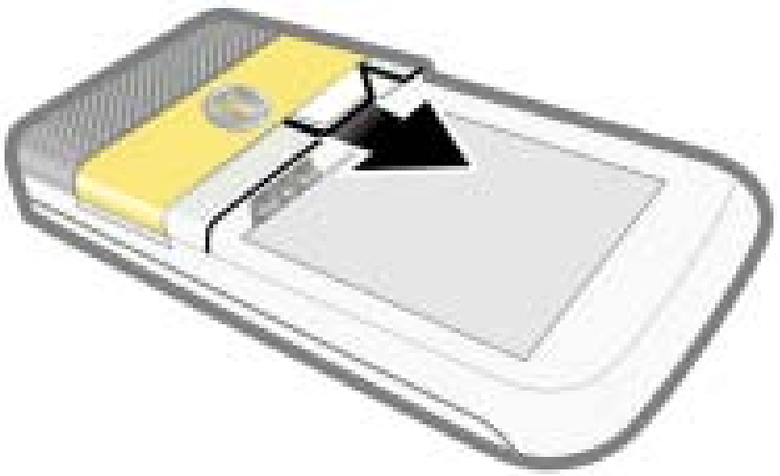
To remove the battery cover



- Use the slots to detach cover.

This is the Internet version of the User's guide. © Print only for private use.

To remove the SIM card



1 Remove the battery cover.
2 Remove the SIM card from its holder.

Turning on the phone

To turn on the phone

1 Press and hold down .
2 Enter your SIM card PIN, if requested and select OK.
3 Select a language.
4 Select Yes to use the setup wizard while settings are downloaded.

If you want to correct a mistake when you enter your PIN, press C.

Before turning the phone off, you must return to standby.

SIM card

The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger before you insert or remove the SIM card.

You can save contacts on the SIM card before you remove it from your phone. See To copy names and numbers to the SIM card on page 23.

This is the Internet version of the User's guide. © Print only for private use.

PIN

You may need a PIN (Personal Identification Number) to activate the services in your phone. Your PIN is supplied by your network operator. Each PIN digit appears as *, unless it starts with emergency number digits, e.g., 112 or 911. You can see and call an emergency number without entering a PIN.

If you enter the wrong PIN three times in a row, the SIM card is blocked. See SIM card lock on page 59.

Start-up screen

The start-up screen appears when you turn your phone on. See *Using pictures* on page 39.

Standby

After you have turned your phone on and entered your PIN, the name of the network operator appears. This view is called standby.

Help

In addition to this User guide, Getting started guides and more information are available at *www.sonyericsson.com/support*.

Help in your phone

Help and information are available in your phone. See *Navigation* on page 13.

To view tips and tricks

1 From standby select Menu > Settings > the General tab > Setup wizard.
2 Select Tips and tricks.

This is the Internet version of the User's guide. © Print only for private use.

To view information about functions

- Scroll to a function and select Info, if available. In some cases, Info appears under Options.

To view the phone demonstration

- From standby select Menu > Entertainment > Demo tour.

To view status information

- From standby press the volume key up.

Charging the battery

The phone battery is partly charged when you buy it.

To charge the battery

1. Connect the charger to the phone. It takes approximately 2.5 hours to fully charge the battery. Press a key to view the screen.
2. Remove the charger by tilting the plug upwards.

You can use your phone while it is charging. You can charge the battery at any time and for more or less than 2.5 hours. You can interrupt the charging without damaging the battery.

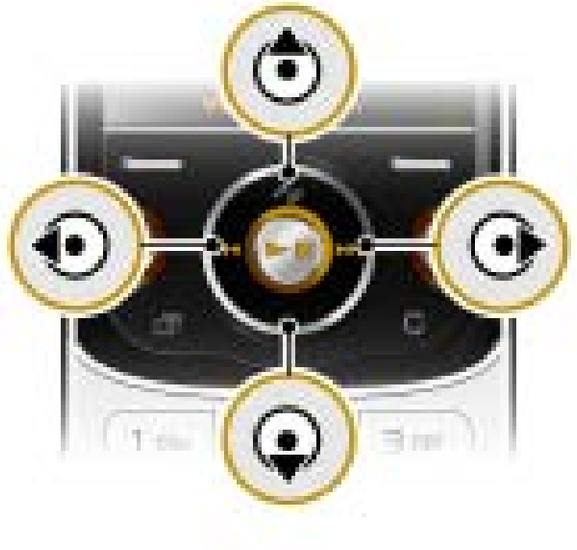
** Some menus are operator-, network- and subscription-dependent.*
*** You can use the navigation key to scroll between tabs in submenus. For more information, see Navigation on page 13.*

This is the Internet version of the User's guide. © Print only for private use.

Navigation

The main menus are shown as icons. Some submenus include tabs.

To navigate the phone menus



1 From standby select Menu.
2 Use the navigation key to move through the menus.

To select actions on the screen

- Press the left or right selection key, or the centre navigation key.

To view options for an item

- Select Options to, e.g., edit.

To scroll between the tabs

- Scroll to a tab by pressing the navigation key left or right.

To return to standby

- Press .

To end a function

- Press .

To navigate your media

1 From standby select Menu > Media.
2 Scroll to a menu item and press the navigation key right.
3 To go back, press the navigation key left.

To delete items

- Press C to delete items such as numbers, letters, pictures and sounds.

To send items

1 Scroll to an item such as a contact, a picture or a sound.
2 Select Options > Send to send items such as contacts, pictures and sounds.
3 Select a transfer method.

! *Make sure the receiving device supports the transfer method you select.*

Shortcuts

You can use keypad shortcuts to go directly to a menu. Menu numbering starts from the top left icon and moves across and then down row by row.

This is the Internet version of the User's guide. © Print only for private use.

To go directly to a main menu

- From standby select Menu and press 1 – 9, *a/A, 0 +, or #␣.

To use navigation key shortcuts

- From standby press ▲, ▼, ◀ or ▶ to go directly to a function.

! *The* Main menu layout *must be set to* Grid*. See To change the main menu layout on page 59.*

To edit a navigation key shortcut

1 From standby select Menu > Settings > the General tab > Shortcuts.
2 Scroll to an option and select Edit.
3 Scroll to a menu option and select Shortc.

Activity menu

The activity menu gives you quick access to certain functions.

To open the activity menu

- Press ⧉.

Activity menu tabs

- New events – missed calls and new messages.
- Running apps – applications that are running in the background.
- My shortcuts – add your favourite functions to access them quickly.
- Internet – quick access to the Internet.

Memory card

! *You may have to purchase a memory card separately.*

Your phone supports Memory Stick Micro™ (M2™) memory card adding more storage space to your phone. It can also be used as a portable memory card with other compatible devices.

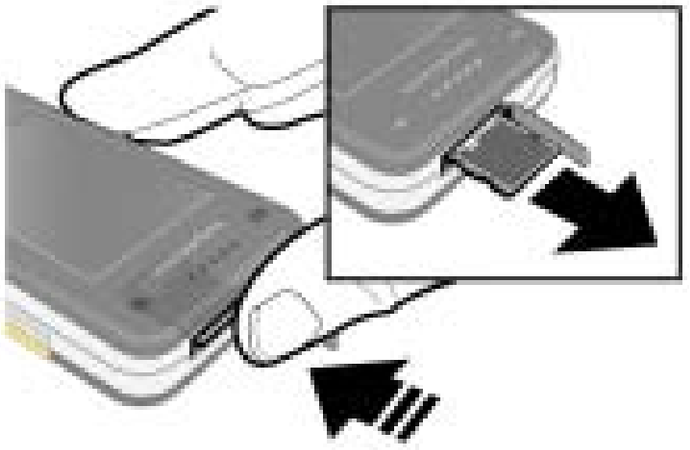
You can use the file manager to move files between the memory card and the phone memory. See *To move a file in the file manager* on page 56.

To insert a memory card

- Open the cover and insert the memory card with the gold-coloured contacts facing up.

This is the Internet version of the User's guide. © Print only for private use.

To remove a memory card



- Open the cover and press the edge of the memory card to release and remove it.

To view memory card options

1. From standby select Menu > Organizer > File manager > the On memory card tab.
2. Select Options.

Phone language

You can select a language to use in your phone.

To change the phone language

1. From standby select Menu > Settings > the General tab > Language > Phone language.
2. Select an option.

Entering text

You can use multitap text input or T9™ Text Input to enter text. The T9 Text Input method uses a built-in dictionary.

To change text input method

- When you enter text, press and hold down *a/A.

To shift between capitals and lower-case letters

- When you enter text, press *a/A.

To enter numbers

- When you enter text, press and hold down 0 + – 9.

To enter full stops and commas

- When you enter text, press 1.

To enter a symbol

1. When you enter text, select Options > Add symbol.
2. Scroll to a symbol and select Insert.

To enter text using T9™ Text Input

1. From standby select, e.g., Menu > Messaging > Write new > Text message.
2. If T9 is not displayed, press and hold down *a/A to change to T9 Text Input.

This is the Internet version of the User's guide. © Print only for private use.

3 Press each key only once, even if the letter you want is not the first letter on the key. E.g., to write the word “Jane”, press 5, 2, 6, 3. Write the whole word before looking at the suggestions.
4 Use or to view suggestions.
5 Press # to accept a suggestion.

To enter text using multitap

1 From standby select, e.g., Menu > Messaging > Write new > Text message.
2 If T9 is displayed, press and hold down * a/A to change to multitap text input.
3 Press 2 – 9 repeatedly until the desired letter appears. E.g., to write the word “Jane”, press 5, 2, 6, 6, 3.
4 When a word is written, press # to add a space.

To add words to the built-in dictionary

1 When you enter text using T9 Text Input, select Options > Spell word.
2 Write the word using multitap input and select Insert.

Walkman® and music

You can listen to music, audio books and podcasts. Use *Sony Ericsson Media Manager* to transfer content to your phone. For more information go to the Getting started section at *www.sonyericsson.com/support*.

! *Sony Ericsson Media Manager software is available for download at www.sonyericsson.com/support.*

Transferring content to and from a computer

Required operating systems
You need one of these operating systems to use the software included on the CD:

- Microsoft® Windows Vista™ 32 bit or 64 bit versions of: Ultimate, Enterprise, Business, Home Premium, Home Basic)
- Microsoft® Windows XP (Pro or Home), Service Pack 2 or higher

To install Media Manager

1 Turn on your computer and insert the CD. The CD starts automatically and the installation window opens.
2 Select a language and click *OK*.
3 Click *Install Sony Ericsson Media Manager* and follow the instructions.

This is the Internet version of the User's guide. © Print only for private use.

To transfer content using Media Manager

1. Connect the phone to a computer with a USB cable supported by your phone.
2. **Computer:** *Start/Programmes/ Sony Ericsson/Media Manager.*
3. **Phone:** Select Media transfer.

Do not remove the USB cable from your phone or computer during transfer, as this may corrupt the memory card or the phone memory.

4. **Computer:** Wait until the phone appears in Media Manager.
5. Move files between your phone and the computer in Media Manager.

For details on transferring music, refer to Media Manager Help. Click ? in the top right corner of the Media Manager window.

Stereo portable handsfree

To use the handsfree

- Connect the portable handsfree. Music stops when you receive a call and resumes when the call has ended.

Walkman® player

To play music

1. From standby select Menu > Media > Music.
2. Scroll to a title and select Play.

To stop playing music

- Press the centre navigation key.

To fast forward and rewind

- Press and hold down ▶ or ◀.

To move between tracks

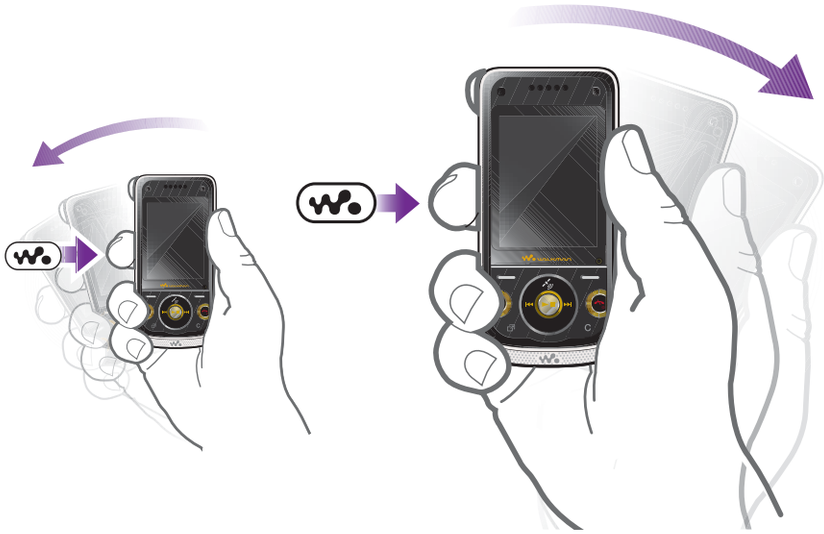
- Press ▶ or ◀.

To change the volume

- Press the volume keys up or down.

Shake control

To switch track



- When you listen to music, press and hold down Walkman and move the phone to the right with a flick of your wrist to go to the next track. To go to the previous track, use the same action to the left.

This is the Internet version of the User's guide. © Print only for private use.

To shuffle tracks

- When you listen to music, press and hold down and shake your phone.

To change the volume

- When you listen to music, hold the phone out in front of you facing upwards. Press and hold down , and bend your arm upwards towards you to increase the volume. To decrease the volume, repeat the action in the opposite direction.

Browsing files

Music is saved and categorised.

- Artists – list music by artist.
- Albums – list music by album.
- Tracks – list all music tracks.
- Playlists – create own lists of tracks.
- SensMe™ – list tracks by mood. For the SensMe™ function to work, the tracks need to be transferred using Media Manager.
- Genre – list music by genre.
- Year – list music by year.
- Audio books – list audio books you have transferred from your computer.
- Podcasts – list all podcasts.

Playlists

You can create playlists to organise music files. Files can be added to more than one playlist.

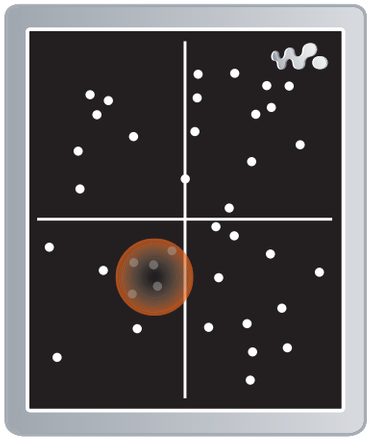
Deleting a playlist, or a file from a playlist, does not delete the file from the memory, just the reference to the file.

To create a playlist

1. From standby select Menu > Media and scroll to Music > Playlists.
2. Scroll to New playlist and select Add.
3. Enter a name and select OK.
4. For each track you want to add, scroll to the track and select Mark.
5. Select Add to add the tracks to the playlist.

This is the Internet version of the User's guide. © Print only for private use.

To create a playlist by mood



! *To create playlists by mood, your music tracks must be transferred to your phone using Media Manager. For information on how to analyze your music, see Media Manager Help.*

1 From standby select Menu > Media.
2 Scroll to Music > SensMe™ and select Open.
3 Press the navigation , , or to preview different tracks.
4 Select Add > Create > Options > Save playlist.
5 Enter a name and select OK.

To add files to a playlist

1 From standby select Menu > Media and scroll to Music > Playlists.
2 Select a playlist.
3 Scroll to Add music and select Add.
4 For each track you want to add, scroll to the track and select Mark.
5 Select Add to add the tracks to the playlist.

To remove tracks from a playlist

1 From standby select Menu > Media and scroll to Music > Playlists.
2 Select a playlist.
3 Scroll to the track and press C.

To view information about a track

- Scroll to a track and select Options > Information.

Audio books

You can listen to audio books that you have transferred to your phone from a computer using Media Manager.

! *It may take a few minutes before a transferred audio book appears in the list of available audio books.*

To play audio books

1 From standby select Menu > Media > Music > Audio books.
2 Select an audio book.
3 Scroll to a chapter and select Play.

! *Audio books in other formats than M4B or audio books that do not have ID3v2 chapter tags can be found in the* Tracks *folder.*

This is the Internet version of the User's guide. © Print only for private use.

PlayNow™

You can connect to PlayNow™ to download ringtones, games, music, themes and wallpapers. You can preview or listen to content before you purchase and download it to your phone.

This service is not available in all countries.

Before you use PlayNow™

You must have the required Internet connection settings in your phone. See *Settings* on page 48.

To use PlayNow™

1 From standby select Menu > PlayNow™.
2 Scroll the PlayNow™ Web site and follow the instructions to preview and purchase content.

TrackID™

TrackID™ is a music recognition service. You can search for song titles, artists and album names.

For best results, use TrackID™ in a quiet environment.

For cost information contact your service provider.

To search for song information

- When you hear a song through a loudspeaker, from standby select Menu > Entertainment > TrackID™ > Start.
- When the radio is playing select Options > TrackID™.

Online music and video clips

You can view video clips and listen to music by streaming them to your phone from the Internet. If settings are not already in your phone, see *Settings* on page 48. For more information, contact your network operator or go to *www.sonyericsson.com/support*.

To select a data account for streaming

1 From standby select Menu > Settings > the Connectivity tab > Streaming settings > Connect using:.
2 Select the data account to use.
3 Select Save.

To stream music and video clips

1 From standby select Menu > Internet.
2 Select Options > Go to > Bookmarks.
3 Select a link to stream from.

This is the Internet version of the User's guide. © Print only for private use.

Calling

Making and receiving calls

You need to turn on your phone and be within range of a network.

To make a call

1 From standby enter a phone number (with international country code and area code, if applicable).
2 Press .

You can call numbers from your contacts and call list. See Contacts on page 22, and Call list on page 25. You can also use your voice to make calls. See Voice control on page 26.

To end a call

- Press .

To make international calls

1 From standby press and hold down 0 + until a “+” sign appears.
2 Enter the country code, area code (without the first zero) and phone number.
3 Press .

To answer a call

- Press .

To reject a call

- Press .

To redial a number

- When Retry? appears select Yes.

Do not hold your phone to your ear when waiting. When the call connects, your phone gives a loud signal.

To change the ear speaker volume during a call

- Press the volume key up or down.

To mute the microphone during a call

1 Press and hold down C.
2 Press and hold down C again to resume.

To turn the loudspeaker on during a call

- Select SpkrOn.

Do not hold your phone to your ear when using the loudspeaker. This could damage your hearing.

To view previous calls from standby

- Press to open the call list.

Networks

Your phone switches automatically between GSM and 3G (UMTS) networks depending on availability. Some network operators allow you to switch networks manually.

This is the Internet version of the User's guide. © Print only for private use.

To switch networks manually

1 From standby select Menu > Settings > the Connectivity tab > Mobile networks > GSM/3G networks.
2 Select an option.

Emergency calls

Your phone supports international emergency numbers, e.g., 112 and 911. These numbers can normally be used to make emergency calls in any country, with or without the SIM card inserted, if a 3G (UMTS) or GSM network is within range.

! *In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card.*

To make an emergency call

- From standby enter 112 (the international emergency number) and press .

To view your local emergency numbers

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Special numbers > Emergency nos..

Contacts

You can save names, phone numbers and personal information in Contacts. Information can be saved in the phone memory or on the SIM card.

Default contacts

You can choose which contact information is shown as default. If Phone contacts is selected as default, your contacts show all the information saved in Contacts. If you select SIM contacts as default, your contacts show names and numbers saved on the SIM card.

To select default contacts

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Advanced > Default contacts.
3 Select an option.

Phone contacts

Phone contacts can contain names, phone numbers and personal information. They are saved in the phone memory.

To add a phone contact

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Add.
3 Enter the name and select OK.
4 Scroll to New number: and select Add.

This is the Internet version of the User's guide. © Print only for private use.

5 Enter the number and select OK.
6 Select a number type.
7 Scroll between tabs and select the fields to add information.
8 Select Save.

Calling contacts

To call a phone contact

1 From standby select Menu > Contacts.
2 Scroll to a contact and press .

To go directly to the contacts list

- From standby press and hold down 2 – 9.

To call with Smart search

1 From standby press 0 + – 9 to enter a contact name or a phone number. All entries which match the sequence of digits or letters are shown in a list.
2 Scroll to a contact or a phone number and press .

To turn Smart search on or off

1 From standby select Menu > Settings > the Calls tab > Smart search.
2 Select an option.

Editing contacts

To add information to a phone contact

1 From standby select Menu > Contacts.
2 Scroll to a contact and select Options > Edit contact.
3 Scroll between the tabs and select Add or Edit.
4 Select an option and an item to add or edit.
5 Select Save.

If your subscription supports Calling Line Identification (CLI) service, you can assign personal ringtones and pictures to contacts.

To copy names and numbers to phone contacts

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Advanced > Copy from SIM.
3 Select an option.

To copy names and numbers to the SIM card

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Advanced > Copy to SIM.
3 Select an option.

When you copy all contacts from your phone to the SIM card, all existing SIM card information is replaced.

This is the Internet version of the User's guide. © Print only for private use.

To automatically save names and phone numbers on the SIM card

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Advanced > Auto save on SIM.
3 Select an option.

To save contacts on a memory card

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Advanced > Back up to m. card.

SIM contacts

SIM contacts can contain names and numbers only. They are saved on the SIM card.

To add a SIM contact

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Add.
3 Enter the name and select OK.
4 Enter the number and select OK.
5 Select a number option and add more information, if available.
6 Select Save.

To call a SIM contact

1 From standby select Menu > Contacts.
2 Scroll to a contact and press .

Deleting contacts

To delete all contacts

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Advanced > Delete all contacts.
3 Select an option.

Memory status

The number of contacts you can save in your phone or on the SIM card depends on available memory.

To view memory status

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Advanced > Memory status.

Synchronising contacts

The Sony Ericsson PC Suite is designed to work with the following programmes:

- Windows Contact (Vista Contacts Manager)
- Windows Calendar (Vista Calendar)
- Microsoft Outlook 2007
- Microsoft Outlook 2003
- Microsoft Outlook 2002
- Microsoft Outlook 2000
- Lotus Notes™ 7
- Lotus Notes 6.5
- Lotus Notes 6

This is the Internet version of the User's guide. © Print only for private use.

- Lotus Notes 5
- Windows Address Book (Outlook Express)
- Sony Ericsson PC Suite proprietary contact & calendar manager
  For more information see *Synchronising* on page 51.

Groups

You can create a group of phone numbers and email addresses from Phone contacts to send messages to. See *Messaging* on page 30. You can also use groups (with phone numbers) when you create accepted callers lists.

To create a group of numbers and email addresses

1. From standby select Menu > Contacts.
2. Scroll to New contact and select Options > Groups.
3. Scroll to New group and select Add.
4. Enter a name for the group and select Continue.
5. Scroll to New and select Add.
6. For each contact phone number or email address you want to mark, scroll to it and select Mark.
7. Select Continue > Done.

Call list

You can view information about recent calls.

To call a number from the call list

1. From standby press and scroll to a tab.
2. Scroll to a name or a number and press .

To add a call list number to contacts

1. From standby press and scroll to a tab.
2. Scroll to the number and select Save.
3. Select New contact to create a new contact or select an existing contact to add the number to.

Speed dial

Speed dialling lets you select nine contacts that you can dial quickly. The contacts can be saved in positions 1-9.

To add contacts to speed dial numbers

1. From standby select Menu > Contacts.
2. Scroll to New contact and select Options > Speed dial.
3. Scroll to a position number and select Add.
4. Select a contact.

To speed dial

- From standby enter the position number and press .

This is the Internet version of the User's guide. © Print only for private use.

Voicemail

If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call.

To enter your voicemail number

1 From standby select Menu > Messaging > Settings > Voicemail number.
2 Enter the number and select OK.

To call your voicemail service

- From standby press and hold down 1.

Voice control

By creating voice commands you can:

- Voice dial – call someone by saying their name
- Answer and reject calls when you use a handsfree

To record a voice command using voice dialling

1 From standby select Menu > Settings > the General tab > Voice control > Voice dialling > Activate.
2 Select Yes > New voice command and select a contact. If the contact has more than one number, select the number to add the voice command to.
3 Record a voice command such as “John mobile”.
4 Follow the instructions that appear. Wait for the tone and say the command to record. The voice command is played back to you.
5 If the recording sounds OK, select Yes. If not, select No and repeat steps 3 and 4.

Voice commands are saved in the phone memory only. They cannot be used in another phone.

Voice dialling

You can hear your recorded contact name when you receive a call from that contact.

To voice dial

1 From standby press and hold down a volume key.
2 Wait for the tone and say a recorded name, e.g. “John mobile”. The name is played back to you and the call is connected.

Voice answering

When you use a handsfree, you can answer or reject incoming calls with your voice.

This is the Internet version of the User's guide. © Print only for private use.

To activate voice answering and record voice answer commands

1 From standby select Menu > Settings > the General tab > Voice control > Voice answer > Activate.
2 Follow the instructions that appear and select Cont.. Wait for the tone and say “Answer”, or another word.
3 Select Yes to accept or No for a new recording.
4 Follow the instructions that appear and select Cont.. Wait for the tone and say “Busy”, or another word.
5 Select Yes to accept or No for a new recording.
6 Follow the instructions that appear and select Cont..
7 Select where your voice answering is to be activated.

To answer a call using voice commands

- Say “Answer”.

To reject a call using voice commands

- Say “Busy”.

Diverting calls

You can divert calls, e.g., to an answering service.

When Restrict calls is used, some divert call options are not available. See Restricted dialling on page 29.

To divert calls

1 From standby select Menu > Settings > the Calls tab > Divert calls.
2 Select a call type and a divert option.
3 Select Activate.
4 Enter the number to divert calls to and select OK.

More than one call

You can handle more than one call at a time. E.g., you can put an ongoing call on hold, while you make or answer a second call. You can also switch between the two calls. You cannot answer a third call without ending one of the first two calls.

Call waiting

When call waiting is used, you hear continuous beep if you receive a second call.

To activate call waiting

- From standby select Menu > Settings > the Calls tab > Manage calls > Call waiting > Activate.

To make a second call

1 During the call, select Options > Hold call. This puts the ongoing call on hold.
2 Select Options > Add call.
3 Enter the number to call and press .

This is the Internet version of the User's guide. © Print only for private use.

To answer a second call

- During the call, press . This puts the ongoing call on hold.

To reject a second call

- During the call, press and continue with the ongoing call.

To end an ongoing call and answer a second call

- During the call, select Replace active call.

Handling two voice calls

You can have calls ongoing and on hold at the same time.

To switch between two calls

- During the call, press .

To join two calls

- During the call, select Options > Join calls.

To connect two calls

- During the call, select Options > Transfer call. You are disconnected from both calls.

To end an ongoing call and return to the call on hold

- First press and then .

Conference calls

With a conference call, you can have a joint conversation with up to five people.

To add a new participant

1. During the call, select Options > Hold call. This puts the joined calls on hold.
2. Select Options > Add call.
3. Enter the number to call and press .
4. Select Options > Join calls to add the new participant.
5. Repeat this task to add more participants.

To release a participant

1. Select Options > Release party.
2. Select the participant to release.

To have a private conversation

1. During the call, select Options > Talk to and select the participant to talk to.
2. To resume the conference call, select Options > Join calls.

My numbers

You can view, add and edit your own phone numbers.

To check your phone numbers

1. From standby select Menu > Contacts.
2. Scroll to New contact and select Options > Special numbers > My numbers.
3. Select an option.

This is the Internet version of the User's guide. © Print only for private use.

Restricted dialling

You can restrict outgoing and incoming calls. A password from your service provider is required.

If you divert incoming calls, you cannot use some restrict calls options.

Restrict calls options

Standard options are:

- All outgoing – all outgoing calls
- Outgoing intl – all outgoing international calls
- Outgoing intl roam. – all outgoing international calls except to your home country
- All incoming – all incoming calls
- Inc. when roaming – all incoming calls when you are abroad

To restrict calls

1 From standby select Menu > Settings > the Calls tab > Manage calls > Restrict calls.
2 Select an option.
3 Select Activate.
4 Enter your password and select OK.

Call time and cost

During a call, the duration of the call is shown. You can check the duration of your last call, outgoing calls and the total time of your calls.

To check the call time

- From standby select Menu > Settings > the Calls tab > Time & cost > Call timers.

Showing or hiding your phone number

You can decide to show or hide your phone number when you make a call.

To hide your phone number

1 From standby select Menu > Settings > the Calls tab > Show/hide my no..
2 Select Hide number.

This is the Internet version of the User's guide. © Print only for private use.

Messaging

Receiving and saving messages

You are notified when you receive a message. Messages are automatically saved in the phone memory. When the phone memory is full, you can delete messages or save them on a memory card or on the SIM card.

To save a message on a memory card

- From standby select Menu > Messaging > Settings > General > Save to > Memory card.

To save a message on the SIM card

1. From standby select Menu > Messaging and select a folder.
2. Scroll to a message and select Options > Save message.

To view a message from the inbox

1. From standby select Menu > Messaging > Inbox.
2. Scroll to the message and select View.

Text messages

Text messages can contain simple pictures, sound effects, animations, and melodies.

Before you use messaging

You must have a service centre number. The number is supplied by your service provider and is usually saved on the SIM card. If the number to your service centre is not saved on your SIM card, you must enter the number yourself.

To enter a service centre number

1. From standby select Menu > Messaging > Settings > Text message and scroll to Service centre. The number is shown if it is saved on the SIM card.
2. If there is no number shown, select Edit.
3. Scroll to New ServiceCentre and select Add.
4. Enter the number, including the international "+" sign and country code.
5. Select Save.

To write and send a text message

1. From standby select Menu > Messaging > Write new > Text message.
2. Write the message and select Continue > Contacts look-up.
3. Select a recipient and select Send.

! *If you send a text message to a group, you will be charged for each member.* *See Groups on page 25.*

To copy and paste text in a text message

1. When you write the message, select Options > Copy & paste.
2. Select Copy all or Mark & copy. Scroll to and mark text in the message.
3. Select Options > Copy & paste > Paste.

This is the Internet version of the User's guide. © Print only for private use.

To add an item to a text message

1 When you write the message, select Options > Add item.
2 Select an option and then an item.

To call a number in a text message

- When you view the message, scroll to the phone number and press .

To turn long messages on

1 From standby select Menu > Messaging > Settings > Text message.
2 Select Max. msg length > Max. available.

Picture messages

Picture messages can contain text, pictures, slides, sound recordings, video clips, signatures and attachments. You can send picture messages to a phone or an email address.

Before you use picture messaging

You must set an MMS profile and the address of your message server. If no MMS profile or message server exists, you can receive all the settings automatically from your network operator or at *www.sonyericsson.com/support*.

To select an MMS profile

1 From standby select Menu > Messaging > Settings > Picture message > MMS profile.
2 Select a profile.

To set the message server address

1 From standby select Menu > Messaging > Settings > Picture message.
2 Scroll to MMS profile and select Edit.
3 Select Options > Edit.
4 Scroll to Message server and select Edit.
5 Enter the address and select OK > Save.

To create and send a picture message

1 From standby select Menu > Messaging > Write new > Picture msg.
2 Enter text. To add items to the message, press , scroll and select an item.
3 Select Continue > Contacts look-up.
4 Select a recipient and select Send.

Receiving picture messages

You can select how to download your picture messages. Standard options when you download picture messages are:

- Always – automatic download.
- Ask in roaming – ask to download when not in home network.
- Not in roaming – do not download when not in home network.
- Always ask – ask to download.
- Off – new messages appear in the Inbox.

This is the Internet version of the User's guide. © Print only for private use.

To set automatic download

1 From standby select Menu > Messaging > Settings > Picture message > Auto download.
2 Select an option.

Message options

You can set standard options for all messages or choose specific settings each time you send a message.

To set text message options

1 From standby select Menu > Messaging > Settings > Text message.
2 Scroll to an option and select Edit.

To set picture message options

1 From standby select Menu > Messaging > Settings > Picture message.
2 Scroll to an option and select Edit.

To set message options for a specific message

1 When the message is ready and a recipient is selected, select Options > Advanced.
2 Scroll to an option and select Edit.

Voice messages

You can send and receive a sound recording as a voice message.

The sender and recipient must have a subscription supporting picture messaging.

To record and send a voice message

1 From standby select Menu > Messaging > Write new > Voice message.
2 Record the message and select Stop > Send > Contacts look-up.
3 Select a recipient and select Send.

Email

You can use standard email functions and your computer email address in your phone.

Before you use email

You can use the setup wizard to check if settings are available for your email account or you can enter them manually. You can also receive settings at *www.sonyericsson.com/support*.

To create an email account

1 From standby select Menu > Messaging > Email > Accounts.
2 Scroll to New account and select Add.

If you enter settings manually, you can contact your email provider for more information. An email provider could be the company that supplied your email address.

This is the Internet version of the User's guide. © Print only for private use.

To write and send an email message

1. From standby select Menu > Messaging > Email > Write new.
2. Select Add > Enter email address. Enter the email address and select OK.
3. To add more recipients, scroll to To: and select Edit.
4. Scroll to an option and select Add > Enter email address. Enter the email address and select OK. When you are ready, select Done.
5. Select Edit and enter a subject. Select OK.
6. Select Edit and enter the text. Select OK.
7. Select Add and choose a file to attach.
8. Select Cont. > Send.

To receive and read an email message

1. From standby select Menu > Messaging > Email > Inbox > Options > Check new email.
2. Scroll to the message and select View.

To save an email message

1. From standby select Menu > Messaging > Email > Inbox.
2. Scroll to the message and select View > Options > Save message.

To reply to an email message

1. From standby select Menu > Messaging > Email > Inbox.
2. Scroll to the message and select Options > Reply.
3. Write the reply and select OK.
4. Select Cont. > Send.

To view an attachment in an email message

- When you view the message, select Options > Attachments > Use > View.

To save an attachment in an email message

- When you view the message, select Options > Attachments > Use > Save.

Synchronising email

Email can be synchronised with a Microsoft Exchange Server (Microsoft® Outlook®). For more information see *Synchronising* on page 51.

Active email account

If you have several email accounts, you can change which one is active.

To change the active email account

1. From standby select Menu > Messaging > Email > Accounts.
2. Select an account.

This is the Internet version of the User's guide. © Print only for private use.

Push email

You can receive notification in your phone from your email server that you have new email messages.

To turn on push email notification

- From standby select Menu > Messaging > Email > Settings > Push email.

My friends

You can connect and log in to the My friends server to communicate online with chat messages.

Before you use My friends

If no settings exist in your phone, you need to enter server settings. Your service provider can provide standard settings information such as:

- Username
- Password
- Server address
- Internet profile

To enter My friends server settings

1. From standby select Menu > Messaging > My friends > Configure.
2. Scroll to a setting and select Add.

To log in to the My friends server

- From standby select Menu > Messaging > My friends > Log in.

To log out of the My friends server

- Select Options > Log out.

To add a chat contact

1. From standby select Menu > Messaging > My friends > the Contacts tab.
2. Select Options > Add contact.

To send a chat message

1. From standby select Menu > Messaging > My friends > the Contacts tab.
2. Scroll to a contact and select Chat.
3. Write the message and select Send.

Status

You can show your status, e.g., Happy or Busy, to your contacts only. You can also show your status to all users on the My friends server.

To show my status

1. From standby select Menu > Messaging > My friends > Options > Settings > Show my status.
2. Select an option.

To update your own status

1. From standby select Menu > Messaging > My friends > the Contacts tab.
2. Edit the information.
3. Select Options > Save.

This is the Internet version of the User's guide. © Print only for private use.

Chat group

A chat group can be started by your service provider, by an individual My friends user or by yourself. You can save chat groups by saving a chat invitation or by searching for a specific chat group.

To create a chat group

1 From standby select Menu > Messaging > My friends > the Chat groups tab.
2 Select Options > Add chat group > New chat group.
3 Select who to invite from your contacts list and select Cont..
4 Enter a short invitation text and select Cont. > Send.

To add a chat group

1 From standby select Menu > Messaging > My friends > the Chat groups tab > Options > Add chat group.
2 Select an option.

Conversation history is saved between log out and when you log in again to let you return to chat messages from previous conversations.

To save a conversation

1 From standby select Menu > Messaging > My friends > the Conversations tab.
2 Enter a conversation.
3 Select Options > Advanced > Save conversation.

Area and cell information

Area and cell information are text messages, e.g., local traffic reports that are sent to subscribers within a certain network area.

To turn area information on

1 From standby select Menu > Messaging > Settings > Area info.
2 Scroll to Reception and select Edit > On.

This is the Internet version of the User's guide. © Print only for private use.

Imaging

Camera and video recorder

You can take pictures and record video clips to view, save or send. You find your saved pictures and video clips in Media > Photo > Cam. album and File manager.

Viewfinder and camera keys

1	Brightness
2	Take pictures/Record video

Using the camera

To activate the camera

- From standby select Menu > Camera.

To take a picture

1. Activate the camera and press ◉ or ◉ to scroll to .
2. Press the centre navigation key to take a picture.
3. The picture is automatically saved to the memory card.

Do not record with a strong light source in the background. Use a support or the self-timer to avoid a blurred picture.

To record a video clip

1. Activate the camera and press ◉ or ◉ to scroll to .
2. Press the centre navigation key to start recording.

To stop recording

1. Press the centre navigation key.
2. The video clip is automatically saved on the memory card.

To use zoom

- Press ◉ or ◉ zoom in or out.

When taking a picture, zoom is available in VGA mode only.

This is the Internet version of the User's guide. © Print only for private use.

To adjust brightness

- Press ▲ or ▼ to adjust the brightness.

To view pictures and video clips

1. Activate the camera.
2. Select Options > View all pictures.
3. To view a video clip, press the centre navigation key.

To improve a picture with Photo fix

1. Activate the camera and press ↑ or ↓ to scroll to .
2. Make sure Review is set to On. Select Options and scroll to Review > On.
3. Take a picture.
4. During review, select Options > Photo fix.

You can also use Photo fix on pictures taken previously. When viewing a picture, select Options > Photo fix.

Camera icons and settings

Icons on the screen inform what the current setting is. More camera settings are available in Options.

To change settings

- Activate the camera and select Options.

Camera shortcuts

Key	Shortcut
↑ ↓	Zoom
▲ ▼	Brightness
1	Camera: Shoot mode Video: Video length
3	Self-timer
2	Night mode
0 +	Camera key guide

Transferring pictures

Transfer to and from your computer

You can use Bluetooth™ wireless technology and the USB cable to transfer pictures and video clips between your computer and phone. See *Bluetooth™ wireless technology* on page 49 and *Transferring content to and from a computer* on page 16 for more information.

You can view, enhance and organise your pictures and video clips on your computer by installing *the Adobe™ Photoshop™ Album Starter Edition.* It is included on the CD that comes with your phone and available for download at *www.sonyericsson.com/support*.

This is the Internet version of the User's guide. © Print only for private use.

Picture and video blog

A blog is a personal Web page. If your subscription supports this service, you can send pictures or video clips to a blog.

Web services may require a separate licence agreement between you and the service provider. Additional regulations and charges may apply. Contact your service provider.

To send camera pictures to a blog

1. From standby select Menu > Media and scroll to Photo > Cam. album.
2. Scroll to a month and a picture. Select View.
3. Select Options > Send > To blog.
4. Enter a title and text and select OK.
5. Select Publish.

To send video clips to a blog

1. From standby select Menu > Media and scroll to Video.
2. Scroll to a video clip.
3. Select Options > Send > To blog.
4. Enter a title and text and select OK.
5. Select Publish.

To go to a blog address from contacts

1. From standby select Menu > Contacts.
2. Scroll to a contact and select a Web address.
3. Select Go to.

Pictures

You can view and tag your pictures in Media.

To view pictures in a slide show

1. From standby select Menu > Media and scroll to Photo > Cam. album.
2. Scroll to a month and a picture. Select View.
3. Select Options > Slide show.
4. Select a mood.

To turn off location data for pictures

- From standby select Menu > Camera > Options > Add position > Off.

Photo tags

You can tag pictures to categorise them. They are saved in Photo tags.

To tag pictures

1. From standby select Menu > Media and scroll to Photo > Cam. album.
2. Scroll to a month and a picture. Select View.
3. Press ◉ and scroll to a tag.
4. Press the centre navigation key.
5. For each picture you want to tag, use ◀ or ▶ to scroll to the picture and press the centre navigation key.

This is the Internet version of the User's guide. © Print only for private use.

To create a new photo tag

1 From standby select Menu > Media and scroll to Photo > Cam. album.
2 Scroll to a month and a picture. Select View.
3 Press ◉ and select Options > New tag.
4 Enter a name and select OK.
5 Select an icon.
6 Press the centre navigation key to tag the picture.

Using pictures

You can add a picture to a contact, use it during phone start-up or as a screen saver.

To use pictures

1 From standby select Menu > Media and scroll to Photo > Cam. album.
2 Scroll to a month and a picture. Select View.
3 Select Options > Use as.
4 Select an option.

PhotoDJ™ and VideoDJ™

You can edit pictures and video clips.

To edit and save a picture

1 From standby select Menu > Media and scroll to Photo > Cam. album.
2 Scroll to a month and a picture. Select View.
3 Select Options > Edit in PhotoDJ™.
4 Edit the picture.
5 Select Options > Save picture.

To edit and save a video clip

1 From standby select Menu > Organizer > File manager > Videos.
2 Scroll to a video clip and select Options > Edit in VideoDJ™.
3 Edit the video clip.
4 Select Options > Save.

To trim a video clip

1 From standby select Menu > Organizer > File manager > Videos.
2 Scroll to a video clip and select Options > Edit in VideoDJ™ > Edit > Trim.
3 Select Set to set the starting point and select Start.
4 Select Set to set the ending point and select End.
5 Select Trim > Options > Save.

This is the Internet version of the User's guide. © Print only for private use.

Internet

To start browsing

1 From standby select Menu > Internet.
2 Select Options > Go to.
3 Select an option.

If your connection to the Internet does not work, see Settings on page 48 or contact your operator.

To exit the browser

- When you browse the Internet, select Options > Exit browser.

Bookmarks

You can create and edit bookmarks as quick links to your favourite Web pages.

To create a bookmark

1 When you browse the Internet, select Options > Tools > Add bookmark.
2 Enter a title and an address. Select Save.

To select a bookmark

1 From standby select Menu > Internet.
2 Select Options > Go to > Bookmarks.
3 Scroll to a bookmark and select Go to.

History pages

You can view Web pages you have browsed.

To view history pages

- From standby select Menu > Internet > Options > Go to > History.

To use pan and zoom on a Web page

1 When you browse the Internet, press #⌴♫.
2 Use the navigation key to move the frame.
3 Press Zoom.
4 To switch back to pan, press #⌴♫.

To use pan and zoom, you need to turn off Smart-fit: Options > Advanced > Smart-Fit > Off.

Internet keypad shortcuts

You can use the keypad to go directly to an Internet browser function.

To select Internet keypad shortcuts

1 From standby select Menu > Internet.
2 Select Options > Advanced > Keypad mode > Shortcuts.

To make a call while browsing

- When you browse the Internet press .

To save a picture from a Web page

1 When you browse the Internet, select Options > Tools > Save picture.
2 Select a picture.

This is the Internet version of the User's guide. © Print only for private use.

To find text on a Web page

1 When you browse the Internet, select Options > Tools > Find on page.
2 Enter text and press Find.

To send a link

1 When you browse the Internet, select Options > Tools > Send link.
2 Select a transfer method.

Make sure the receiving device supports the transfer method you select.

Internet security and certificates

Your phone supports secure browsing. Certain Internet services, such as banking, require certificates in your phone. Your phone may already contain certificates when you buy it or you can download new certificates.

To view certificates in the phone

- From standby select Menu > Settings > the General tab > Security > Certificates.

Web feeds

You can subscribe to and download frequently updated content, such as news, podcasts or photos, using Web feeds.

To add new feeds for a Web page

1 When you browse a page on the Internet that has Web feeds (indicated by the icon), select Options > Web feeds.
2 For each feed you want to add, scroll to the feed and select Mark.
3 Select Options > Continue.

To download content via feeds

1 From standby select Menu > Media > Web feeds.
2 Scroll to a feed and select View or ►.
3 Select a heading to expand.
4 Select an icon depending on content, to open a Web page, to download an audio podcast, to download a video podcast or to download a photo.

You can also subscribe to and download content to a computer via feeds using Sony Ericsson Media Manager. You can then transfer the content to your phone. *See Transferring content to and from a computer on page 16*

Updating Web feeds

You can manually update your feeds. When there are updates, appears on the screen.

This is the Internet version of the User's guide. © Print only for private use.

To update Web feeds manually

1 From standby select Menu > Media > Web feeds.
2 Scroll to a feed and select Options > Update.
3 Select an option.

Podcasts

Podcasts are files, e.g., radio programmes or video content, that you can download and play. You subscribe to and download podcasts using Web feeds.

To access audio podcasts

- From standby select Menu > Media > Music > Podcasts.

To access video podcasts

- From standby select Menu > Media > Video > Podcasts.

Photo feeds

You can subscribe to Photo feeds and download photos. To start using Photo feeds, see *Web feeds* on page 41.

To access photo feeds

- From standby select Menu > Media > Photo > Photo feeds.

GPS

Your phone is equipped with a GPS receiver that uses satellite signals to calculate your location.

! *Some GPS features use the Internet.*

Using the GPS

Make sure you have a clear view of the sky when using features that require the GPS receiver to find your location. If your location is not found after a few minutes, move to another location. To facilitate the search, stand still and do not cover the GPS antenna.

This is the Internet version of the User's guide. © Print only for private use.

Assisted GPS

With Assisted GPS (A-GPS) it takes less time to calculate a location.

Contact your network operator for more information.

Google Maps™ for mobile

Google Maps™ lets you view maps and satellite imagery, find locations and calculate routes.

To use Google Maps

- From standby select Menu > Location services > Google Maps.

To view help about Google Maps

- When you use Google Maps, select Options > Help.

Driving directions

Wayfinder Navigator™ guides you to your destination using voice instructions. A free three-month trial version of Wayfinder Navigator is included in the phone.

Sony Ericsson does not warrant the accuracy of any directional services including but not limited to turn-by-turn navigational services.

To start Wayfinder Navigator

- From standby select Menu > Location services > Navigation.

More GPS features

Save locations

All saved locations are found in My favourites.

To save your current location

1. From standby select Menu > Location services > My favourites > Add new place.
2. Select Edit and enter the title. Select OK.
3. Scroll to Description: and select Add. Enter the description and select OK.
4. Scroll to Position: and select Add > Current position.

To view a saved location

1. From standby select Menu > Location services > My favourites.
2. Scroll to a location and select Go to.

When you use Google Maps you can press ✳a/A to access your favourites.

Status information

When your location is found you can view available satellites and get information about your current speed and altitude.

This is the Internet version of the User's guide. © Print only for private use.

To view GPS status

1 From standby select Menu > Location services > Status info.
2 Scroll between the tabs.

Location requests

External services may ask for your location.

To change permission for external services

1 From standby select Menu > Location services > Settings > Permission.
2 Select an option.

Turn off the GPS

The GPS receiver is automatically turned off when it is no longer used. You can also manually turn off the GPS receiver. This saves battery power when using features that do not require the GPS receiver to find your location.

To turn the GPS on or off manually

1 From standby select Menu > Location services > Settings.
2 Select an option.

Tracker

Tracker is a GPS-based sports application which allows you to keep track of your speed, distance, route and energy consumption during training.

! *Information provided by use of the Tracker application is approximate. Sony Ericsson makes no warranty of any kind with respect to the accuracy of the Tracker application. Any serious health and fitness concerns should be referred to a health care professional.*

You can base the training on how long time you want to train or on what distance you want to cover. You can also base it on a previous training route which has GPS data.

To start a training session

1 From standby select Menu > Location services > Tracker > Start training.
2 Select a training type.
3 Scroll to an item, select Edit and enter the data.
4 Select Done to save.
5 Select Start to start training.

To compare results during training

1 From standby select Menu > Location services > Tracker > Start training.
2 Select Route based.
3 Scroll to Route:, select Edit and select a route.
4 Scroll to Live compare and select Edit.
5 Scroll to the result you want to compare with and select Compare.
6 Select Done and then Start.

This is the Internet version of the User's guide. © Print only for private use.

You must have previously saved a route for comparison.

To switch between training views

- During a training session, press ◀ or ▶ to view information on training duration, progress and live comparison with a previous session.

To end a training session manually

- During a training session, select Pause > End.

Results

The training result is shown after a session is ended. You can view past results anytime, and compare them if they have GPS data.

To view a training result

- From standby select Menu > Location services > Tracker > Results. If you have used laps, press ◀ or ▶ to view result per lap.

To compare results

1. From standby select Menu > Location services > Tracker > Results.
2. Scroll to a result and select Options > Compare.
3. Select a result to compare with.

You must have previously saved a route for comparison.

Energy consumption

To calculate and view the energy consumption for a session you must first set your personal profile. You view the energy consumption in the result view.

To set the personal profile

1. From standby select Menu > Location services > Tracker > Settings > Personal profile.
2. Select an item, enter data and press OK.
3. When finished, select Options > Save profile.

To turn on energy consumption

- From standby select Menu > Location services > Tracker > Settings > Energy consumption > On.

This is the Internet version of the User's guide. © Print only for private use.

Entertainment

Video player

To play videos

1 From standby select Menu > Media and scroll to Video.
2 Scroll to a title and select Play.

To stop playing videos

- Press the centre navigation key.

Radio

Do not use your phone as a radio in places where this is prohibited.

To listen to the radio

1 Connect the handsfree to the phone.
2 From standby select Menu > Entertainment > Radio.

To change the volume

- When the radio is playing, press the volume keys up or down.

To automatically search for channels

- When the radio is playing, select Search.

To manually search for channels

- When the radio is playing, press or .

Saving channels

You can save up to 20 preset channels.

To save channels

1 When you have found a radio channel select Options > Save.
2 Scroll to a position and select Insert.

To select saved channels

1 From standby select Menu > Entertainment > Radio > Options > Channels.
2 Select a radio channel.

To switch between saved channels

- When the radio is playing, press or .

Ringtones and melodies

To set a ringtone

1 From standby select Menu > Settings > the Sounds & alerts tab > Ringtone.
2 Find and select a ringtone.

To set the ringtone volume

1 From standby select Menu > Settings > the Sounds & alerts tab > Ring volume.
2 Press or to change the volume.
3 Select Save.

To turn the ringtone off

- From standby press and hold down .

All signals except the alarm signal are affected.

This is the Internet version of the User's guide. © Print only for private use.

To set the vibrating alert

1 From standby select Menu > Settings > the Sounds & alerts tab > Vibrating alert.
2 Select an option.

MusicDJ™

You can compose and edit your own melodies to use as ringtones. A melody consists of four types of tracks – Drums, Basses, Chords, and Accents. A track contains a number of music blocks. The blocks consist of pre-arranged sounds with different characteristics. The blocks are grouped into Intro, Verse, Chorus, and Break. You compose a melody by adding music blocks to the tracks.

To compose a melody

1 From standby select Menu > Entertainment > MusicDJ™.
2 Select to Insert, Copy or Paste blocks.
3 Use ◀, ▶, ▲ or ▼ to scroll between the blocks.
4 Select Options > Save melody.

Sound recorder

You can record a voice memo or a sound. Recorded sounds can also be set as ringtones.

To record a sound

- From standby select Menu > Entertainment > Record sound > Record.

To listen to a recording

1 From standby select Menu > Organizer > File manager.
2 Scroll to Music and select Open.
3 Scroll to a recording and select Play.

Games

Your phone contains preloaded games. You can also download games. Help texts are available for most games.

To start a game

1 From standby select Menu > Media > Games.
2 Select a game.

To end a game

- Press ☎.

Applications

You can download and run Java applications. You can also view information or set different permissions.

Before you use Java™ applications

If Internet settings are not already entered in your phone, see *Settings* on page 48.

To select a Java application

1 From standby select Menu > Organizer > Applications.
2 Select an application.

This is the Internet version of the User's guide. © Print only for private use.

To view information about a Java application

1 From standby select Menu > Organizer > Applications.
2 Scroll to an application and select Options > Information.

To set permissions for a Java application

1 From standby select Menu > Organizer > Applications.
2 Scroll to an application and select Options > Permissions.
3 Set permissions.

Java application screen size

Some Java applications are designed for a specific screen size. For more information, contact the application vendor.

To set the screen size for a Java application

1 From standby select Menu > Organizer > Applications.
2 Scroll to an application and select Options > Screen size.
3 Select an option.

Internet profiles for Java applications

Some Java applications need to connect to the Internet to receive information. Most Java applications use the same Internet settings as your Web browser.

Connectivity

Settings

Before you synchronise with an Internet service, use the Internet, PlayNow™, My friends, Java, picture messaging, email and picture blog you need to have settings in your phone.

If settings are not already entered, you can download settings using the setup wizard or by going to *www.sonyericsson.com/support*.

To download settings using the Setup wizard

1 From standby select Menu > Settings > the General tab > Setup wizard > Settings download.
2 Follow the instructions that appear.

Contact your network operator or service provider for more information.

To download settings using a computer

1 Go to *www.sonyericsson.com/support*.
2 Follow the instructions on the screen.

Phone name

You can enter a name for your phone that is shown to other devices when using, e.g., Bluetooth™ wireless technology.

This is the Internet version of the User's guide. © Print only for private use.

To enter a phone name

1 From standby select Menu > Settings > the Connectivity tab > Phone name.
2 Enter the phone name and select OK.

Bluetooth™ wireless technology

The Bluetooth function makes wireless connection to other Bluetooth devices possible. You can, e.g.:

- Connect to handsfree devices.
- Connect to several devices at the same time.
- Connect to computers and access the Internet.
- Exchange items and play multiplayer games.

We recommend a range within 10 metres (33 feet), with no solid objects in between, for Bluetooth communication.

Before you use Bluetooth wireless technology

You must turn on the Bluetooth function to communicate with other devices. You may also have to pair your phone with other Bluetooth devices.

To turn the Bluetooth function on

- From standby select Menu > Settings > the Connectivity tab > Bluetooth > Turn on.

Make sure that the device you want to pair your phone with has the Bluetooth function activated and Bluetooth visibility set to on.

To receive an item

1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > Turn on.
2 When you receive an item, follow the instructions that appear.

To pair the phone with a device

1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > My devices.
2 Scroll to New device and select Add to search for available devices.
3 Select a device.
4 Enter a passcode, if required.

To allow connection to the phone

1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > My devices.
2 Select a device from the list.
3 Select Options > Allow connection.
4 Select Always ask or Always allow.

This is only possible with devices that require access to a secure service.

This is the Internet version of the User's guide. © Print only for private use.

To pair the phone with a Bluetooth handsfree for the first time

1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > Handsfree.
2 Scroll to a device and select Yes.
3 Enter a passcode, if required.

To pair the phone with more than one Bluetooth handsfree

1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > Handsfree > My handsfree > New handsfree.
2 Select a device from the list.
3 Enter a passcode, if required.

Power saving

You can save battery power with the Power save function. You can only connect with one Bluetooth device at a time when using Power save. You must turn this function off if you want to connect with more than one Bluetooth device at the same time.

To turn powersave on

- From standby select Menu > Settings > the Connectivity tab > Bluetooth > Powersave > On.

Transferring sound to and from a Bluetooth handsfree

You can transfer the sound to and from a Bluetooth handsfree using a phone key or the handsfree key.

To transfer sound

1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > Handsfree > Incoming call.
2 Select an option. In phone transfers sound to the phone. In handsfree transfers sound to the handsfree.

To transfer sound during a call

1 During a call, select Sound.
2 Select from the list.

Using the USB cable

You can connect your phone to a computer with the USB cable to transfer files, synchronise and use your phone as a modem. For more information go to the Getting started section at *www.sonyericsson.com/support*.

This is the Internet version of the User's guide. © Print only for private use.

Before you use the USB cable

- See *Required operating systems* on page 16.

Only use a USB cable supported by your phone. Do not remove the USB cable from your phone or computer during file transfer as this may corrupt the phone memory or the memory card.

To disconnect the USB cable safely

1. Right-click the removable disk icon in *Windows Explorer*.
2. Select *Eject*.
3. Disconnect the USB cable when the following message is shown in the phone: Mass storage session ended. It is now safe to remove the USB cable.

Drag and drop content

You can drag and drop content between your phone or memory card and a computer in *Microsoft Windows Explorer*.

To drag and drop content

1. Connect your phone to a computer using the USB cable.
2. **Phone:** Select Media transfer. The phone will remain activated during file transfer.
3. **Computer:** Wait until the phone icon appears in *My Computer* and then double click to open. Phone memory and memory card appear as external drives.Drag and drop selected files between the phone and the computer.

Synchronising

You can synchronise in two different ways:

- You can use the USB cable or Bluetooth wireless technology to synchronise phone contacts, appointments, bookmarks, tasks and notes with a computer programme such as Microsoft Outlook.
- You can synchronise with an Internet service using SyncML™ or a Microsoft® Exchange Server using Microsoft Exchange ActiveSync. For more information go to the Getting started section at *www.sonyericsson.com/support*.

Use only one of the synchronisation methods at a time with your phone.

This is the Internet version of the User's guide. © Print only for private use.

Synchronising using a computer

Before synchronising you need to install *the Sony Ericsson PC Suite.*

Sony Ericsson PC Suite software is included on the CD with your phone and available for download at www.sonyericsson.com/support.

See *Required operating systems* on 16.

To install the Sony Ericsson PC Suite

1. Turn on your computer and insert the CD. The CD starts automatically and the installation window opens.
2. Select a language and click *OK*.
3. Click *Install Sony Ericsson PC suite* and follow the instructions on the screen.

To synchronise using the PC Suite

1. **Computer:** Start *PC Suite* from *Start/Programmes/Sony Ericsson/PC Suite.*
2. Follow the instructions in the *PC Suite* for how to connect.
3. **Phone:** Select Phone mode.
4. **Computer:** When you are notified that *the Sony Ericsson PC Suite* has found your phone, you can start synchronising.

For usage details, see the Sony Ericsson PC Suite Help section once the software has been installed on your computer.

Synchronising using an Internet service

You can synchronise online using SyncML or Microsoft Exchange Active Sync. If Internet settings are not in your phone, see *Settings* on page 48.

SyncML

You can synchronise remote data and personal information using SyncML.

Before you synchronise using SyncML

You must enter settings for SyncML synchronisation and register a synchronisation account online with a service provider. Settings that are required are:

- Server address – server URL
- Database name – database to synchronise with

To enter settings for SyncML

1. From standby select Menu > Organizer > Synchronization.
2. Scroll to New account and select Add > SyncML.
3. Enter a name for the new account and select Cont.
4. Select Server address. Enter the required information and select OK.

This is the Internet version of the User's guide. © Print only for private use.

5 Enter Username and Password, if required.
6 Scroll to the Applications tab and mark applications to synchronise.
7 Scroll to the App. settings tab and select an application.
8 Select Database name and enter the required information.
9 Scroll to the Advanced tab to enter additional settings for synchronising and select Save.

To synchronise using SyncML

1 From standby select Menu > Organizer > Synchronization.
2 Scroll to an account and select Start.

Microsoft® Exchange ActiveSync

You can access and synchronise corporate exchange information such as email, contacts and calendar entries using Microsoft® Exchange Server with Microsoft® Exchange ActiveSync.

For more information on synchronisation settings, contact your IT administrator.

Before you synchronise using Microsoft® Exchange ActiveSync

You must enter settings for Microsoft Exchange ActiveSync to access a Microsoft Exchange Server. Settings that are required are:

- Server address – server URL
- Domain – server domain
- Username – account username
- Password – account password

Before you start to synchronise with Exchange ActiveSync you must enter the correct time zone in your phone.

To enter settings for Microsoft® Exchange ActiveSync

1 From standby select Menu > Organizer > Synchronization.
2 Scroll to New account and select Add > Exchange ActiveSync.
3 Enter a name for the new account and select Cont.
4 Enter the required settings.
5 Scroll between the tabs to enter additional settings.
6 Select Save.

This is the Internet version of the User's guide. © Print only for private use.

To synchronise using Microsoft® Exchange ActiveSync

1 From standby select Menu > Organizer > Synchronization.
2 Scroll to an account and select Start.

Update service

You can update your phone with the latest software. You do not lose personal or phone information.

There are two ways to update your phone:

- Over the air using your phone
- Using the provided USB cable and an Internet-connected computer

Update service requires data access such as GPRS, 3G or HSDPA.

To set a reminder to use Update service

1 From standby select Menu > Settings > the General tab > Update service > Settings > Reminder.
2 Select an option.

Before you use the Update service

If Internet settings are not in your phone see *Settings* on page 48.

To change Internet settings

- From standby select Menu > Settings > the General tab > Update service > Settings > Internet settings.

To view the current software in the phone

1 From standby select Menu > Settings > the General tab > Update service.
2 Select Software version.

To use Update service using the phone

1 From standby select Menu > Settings > **the** General tab > Update service.
2 Select Search for update and follow the instructions that appear.

To use Update service using a USB cable

1 Go to *www.sonyericsson.com/support* or click *the Sony Ericsson Update service* in *the PC Suite software* if installed on your computer. See *To install the Sony Ericsson PC Suite* on page 52.
2 Select a region and country.
3 Follow the instructions on the screen.

This is the Internet version of the User's guide. © Print only for private use.

More features

Flight mode

In Flight mode the network and radio transceivers are turned off to prevent disturbance to sensitive equipment.

When the flight mode menu is activated you are asked to select a mode the next time you turn on your phone:

- Normal mode – full functionality
- Flight mode – limited functionality

You can use the Bluetooth™ function in Flight mode.

To activate the flight mode menu

- From standby select Menu > Settings > the General tab > Flight mode > Show at startup.

To select flight mode

1. When the flight mode menu is activated, turn off your phone.
2. Turn on your phone and select Flight mode.

File manager

You can use the file manager to handle files saved in the phone memory or on a memory card.

Handling files

You can move and copy files between your phone, a computer and a memory card. See *Transferring content to and from a computer* on page 16. Files are saved on the memory card first and then in the phone memory. Unrecognised files are saved in the Other folder.

You are not allowed to exchange some copyright-protected material. A protected file has a *icon.*

You can create subfolders to move or copy files to. You can select more than one or all the files in a folder at the same time for all folders except Games and Applications.

If the memory is full, delete some content to create space.

File manager tabs

The file manager is divided into three tabs, and icons indicate where the files are saved.

To view information about files

1. From standby select Menu > Organizer > File manager.
2. Find a file and select Options > Information.

This is the Internet version of the User's guide. © Print only for private use.

To move a file in the file manager

1 From standby select Menu > Organizer > File manager.
2 Find a file and select Options > Manage file > Move.
3 Select Memory card or Phone.
4 Open a folder.
5 Select Paste.

To select more than one file in a folder

1 From standby select Menu > Organizer > File manager.
2 Scroll to a folder and select Open.
3 Select Options > Mark > Mark several.
4 For each file you want to mark, scroll to the file and select Mark.

Alarms

You can set a sound or the radio as an alarm signal. The alarm sounds even if the phone is turned off. When the alarm sounds you can silence it or turn it off.

To set the alarm

1 From standby select Menu > Organizer > Alarms.
2 Scroll to an alarm and select Edit.
3 Scroll to Time: and select Edit.
4 Enter a time and select OK > Save.

To set the recurrent alarm

1 From standby select Menu > Organizer > Alarms.
2 Scroll to an alarm and select Edit.
3 Scroll to Recurrent: and select Edit.
4 Scroll to a day and select Mark.
5 To select another day, scroll to the day and select Mark.
6 Select Done > Save.

To silence the alarm

- When the alarm sounds, press any key.
- To repeat the alarm, select Snooze.

To turn off the alarm

- When the alarm sounds, press any key and select Turn off.

To cancel the alarm

1 From standby select Menu > Organizer > Alarms.
2 Scroll to an alarm and select Turn off.

The alarm in silent mode

You can set the alarm not to sound when the phone is in silent mode.

To set an alarm to sound or not in silent mode

1 From standby select Menu > Organizer > Alarms.
2 Scroll to an alarm and select Edit.
3 Scroll to the tab.
4 Scroll to Silent mode: and select Edit.
5 Select an option.

This is the Internet version of the User's guide. © Print only for private use.

Calendar

The calendar can be synchronised with a computer calendar, with a calendar on the Web or with a Microsoft® Exchange Server (Microsoft® Outlook®).

For more information see *Synchronising* on page 51.

Default view

You can choose whether month, week or day view will appear first when you open the calendar.

To set default view

1 From standby select Menu > Organizer > Calendar.
2 Select Options > Advanced > Default view.
3 Select an option.

Appointments

You can add new appointments or reuse existing appointments.

To add an appointment

1 From standby select Menu > Organizer > Calendar.
2 Select a date.
3 Scroll to New appointment and select Add.
4 Enter the information and confirm each entry.
5 Select Save.

To view an appointment

1 From standby select Menu > Organizer > Calendar.
2 Select a date.
3 Scroll to an appointment and select View.

To edit an appointment

1 From standby select Menu > Organizer > Calendar.
2 Select a date.
3 Scroll to an appointment and select View.
4 Select Options > Edit.
5 Edit the appointment and confirm each entry.
6 Select Save.

To view a calendar week

1 From standby select Menu > Organizer > Calendar.
2 Select a date.
3 Select Options > Change view to > Week.

To set when reminders should sound

1 From standby select Menu > Organizer > Calendar.
2 Select a date.
3 Select Options > Advanced > Reminders.
4 Select an option.

This is the Internet version of the User's guide. © Print only for private use.

A reminders option set in calendar affects a reminders option set in tasks.

Notes

You can make notes and save them. You can also show a note in standby.

To add a note

1 From standby select Menu > Organizer > Notes.
2 Scroll to New note and select Add.
3 Write a note and select Save.

To show a note in standby

1 From standby select Menu > Organizer > Notes.
2 Scroll to a note and select Options > Show in standby.

To hide a note from standby

1 From standby select Menu > Organizer > Notes.
2 Scroll to a note and select Options > Hide in standby.

Tasks

You can add new tasks or reuse existing tasks.

To add a task

1 From standby select Menu > Organizer > Tasks.
2 Select New task and select Add.
3 Select an option.
4 Enter details and confirm each entry.

To view a task

1 From standby select Menu > Organizer > Tasks.
2 Scroll to a task and select View.

To set when reminders should sound

1 From standby select Menu > Organizer > Tasks.
2 Scroll to a task and select Options > Reminders.
3 Select an option.

A reminders option set in tasks affects a reminders option set in calendar.

Profiles

You can change settings such as the ring volume and vibrating alert to suit different locations. You can reset all profiles to the phone's original settings.

To select a profile

1 From standby select Menu > Settings > the General tab > Profiles.
2 Select a profile.

This is the Internet version of the User's guide. © Print only for private use.

To view and edit a profile

1 From standby select Menu > Settings > the General tab > Profiles.
2 Scroll to a profile and select Options > View and edit.

! *You cannot rename the Normal profile.*

Time and date

To set the time

1 From standby select Menu > Settings > the General tab > Time & date > Time.
2 Enter the time and select Save.

To set the date

1 From standby select Menu > Settings > the General tab > Time & date > Date.
2 Enter the date and select Save.

To set the time zone

1 From standby select Menu > Settings > the General tab > Time & date > My time zone.
2 Select the time zone you are in.

! *If you select a city,* My time zone *also updates the time when daylight saving time changes.*

Theme

You can change the appearance of the screen through items such as colours and wallpaper. You can also create new themes and download them. For more information, go to *www.sonyericsson.com/support*.

To set a theme

1 From standby select Menu > Settings > the Display tab > Theme.
2 Scroll to a theme and select Set.

Main menu layout

You can change the layout of the icons in the main menu.

To change the main menu layout

1 From standby select Menu > Options > Main menu layout.
2 Select an option.

Locks

SIM card lock

This lock only protects your subscription. Your phone will work with a new SIM card. If the lock is on, you have to enter a PIN (Personal Identity Number).

This is the Internet version of the User's guide. © Print only for private use.

If you enter your PIN incorrectly three times in a row, the SIM card is blocked and you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by your network operator.

To unblock the SIM card

1 When PIN blocked appears, enter your PUK and select OK.
2 Enter a new four-to-eight-digit PIN and select OK.
3 Re-enter the new PIN and select OK.

To edit the PIN

1 From standby select Menu > Settings > the General tab > Security > Locks > SIM protection > Change PIN.
2 Enter your PIN and select OK.
3 Enter a new four-to-eight-digit PIN and select OK.
4 Re-enter the new PIN and select OK.

! *If* Codes do not match *appears, you entered the new PIN incorrectly.*
If Wrong PIN *appears, followed by* Old PIN:*, you entered your old PIN incorrectly.*

To use the SIM card lock

1 From standby select Menu > Settings > the General tab > Security > Locks > SIM protection > Protection.
2 Select an option.
3 Enter your PIN and select OK.

Phone lock

You can stop unauthorised use of your phone. Change the phone lock code (0000) to any four-to-eight-digit personal code.

! *It is important that you remember your new code. If you forget it, you have to take your phone to your local Sony Ericsson retailer.*

To use the phone lock

1 From standby select Menu > Settings > the General tab > Security > Locks > Phone protection > Protection.
2 Select an option.
3 Enter the phone lock code and select OK.

To unlock the phone

- Enter your code and select OK.

To change the phone lock code

1 From standby select Menu > Settings > the General tab > Security > Locks > Phone protection > Change code.
2 Enter the old code and select OK.
3 Enter the new code and select OK.
4 Repeat the code and select OK.

This is the Internet version of the User's guide. © Print only for private use.

Keypad lock

You can set this lock to avoid accidental dialling. Incoming calls can be answered without unlocking the keypad.

Calls to the international emergency number 112 can still be made.

To use the automatic keylock

1. From standby select Menu > Settings > the General tab > Security > Automatic keylock.
2. Select an option.

To unlock the keypad manually

- From standby press any key and select Unlock > OK.

IMEI number

Keep a copy of your IMEI (International Mobile Equipment Identity) number in case your phone is stolen.

To view your IMEI number

- From standby press *a/A, #, 0 +, 6, #.

Troubleshooting

Some problems will require you to call your network operator.

For more support go to *www.sonyericsson.com/support*.

Common questions

Master reset

If you select Reset settings, the changes that you have made to settings will be deleted.

If you select Reset all, in addition to your changes to settings, all contacts, messages, personal data, and content that you have downloaded, received or edited will also be deleted.

To reset the phone

1. From standby select Menu > Settings > the General tab > Master reset.
2. Select an option.
3. Follow the instructions that appear.

I cannot charge the phone or battery capacity is low

The charger is not properly connected or the battery connection is poor. Remove the battery and clean the connectors.

This is the Internet version of the User's guide. © Print only for private use.

The battery is worn out and needs to be replaced. See *Charging the battery* on page 8.

No battery icon appears when I start charging the phone

It may take a few minutes before the battery icon appears on the screen.

Some menu options appear in grey

A service is not activated. Contact your network operator.

I cannot use SMS/text messages on my phone

Settings are missing or incorrect. Contact your network operator to find out the correct SMS service centre setting. See *Text messages* on page 30.

I cannot use picture messages on my phone

Your subscription does not include data capability. Settings are missing or incorrect. Please contact your network operator.

See *Help in your phone* on page 7 or go to *www.sonyericsson.com/support* to order settings and follow the instructions on the screen. See *Settings* on page 48.

I cannot use the Internet

Your subscription does not include data capability. Internet settings are missing or incorrect. Please contact your network operator.

See *Help in your phone* on page 7 or go to *www.sonyericsson.com/support* to order Internet settings, and follow the instructions on the screen. See *Settings* on page 48.

The phone does not ring or rings too softly

Make sure that Silent mode has not been set to On. See *To turn the ringtone off* on page 46.

Check the ringtone volume. See *To set the ringtone volume* on page 46.

Check the profile. See *To select a profile* on page 58.

Check the call diverting options. See *To divert calls* on page 27.

The phone cannot be detected by other devices using Bluetooth wireless technology

You have not turned the Bluetooth function on. Make sure that the visibility is set to show phone. See *To turn the Bluetooth function on* on page 49.

This is the Internet version of the User's guide. © Print only for private use.

I cannot synchronise or transfer data between my phone and my computer, when using the USB cable.

The cable or software that came with your phone has not been properly installed. Go to *www.sonyericsson.com/support* to read Getting started guides which contain detailed installation instructions and troubleshooting guides.

I have forgotten my code memo passcode

If you forget your passcode, you must reset the code memo. This means that all entries in the code memo are deleted. The next time you enter the code memo, you must proceed as if you are opening it for the first time.

To reset code memo

1. From standby select Menu > Organizer > Code memo.
2. Enter any passcode to access the code memo. The checkword and codes that are then shown are incorrect.
3. Select Options > Reset.
4. Reset code memo? appears.
5. Select Yes.

Where can I find the regulatory information such as my IMEI number if I cannot turn on my phone?

Error messages

Insert SIM

There is no SIM card in your phone or you may have inserted it incorrectly.

See *To insert the SIM card* on page 5.

The SIM card connectors need cleaning. If the card is damaged, contact your network operator.

Insert correct SIM card

Your phone is set to work only with certain SIM cards. Check if you are using the correct operator SIM card.

This is the Internet version of the User's guide. © Print only for private use.

Wrong PIN/Wrong PIN2
You have entered your PIN or PIN2 incorrectly.

Enter the correct PIN or PIN2 and select Yes. See *PIN* on page 7.

PIN blocked/PIN2 blocked
You have entered your PIN or PIN2 code incorrectly three times in a row.

To unblock, see *SIM card lock* on page 59.

Codes do not match
Codes that you have entered do not match. When you want to change a security code, e.g. your PIN, you have to confirm the new code. See *SIM card lock* on page 59.

No netw. coverage
Your phone is in flight mode. See *Flight mode* on page 55.

Your phone is not receiving any network signal, or the received signal is too weak. Contact your network operator and make sure that the network has coverage where you are.

The SIM card is not working properly. Insert your SIM card in another phone. If this works, it is probably your phone that is causing the problem. Please contact the nearest Sony Ericsson service location.

Emerg. calls only
You are within range of a network, but you are not allowed to use it. However, in an emergency, some network operators allow you to call the international emergency number 112. See *Emergency calls* on page 22.

PUK blocked. Contact operator.
You entered your personal unblocking key code (PUK) incorrectly 10 times in a row.

This is the Internet version of the User's guide. © Print only for private use.

Important information

Sony Ericsson Consumer Web site

On *www.sonyericsson.com/support* is a support section where help and tips are only a few clicks away. Here you will find the latest computer software updates and tips on how to use your product more efficiently.

Service and support

From now on you will have access to a portfolio of exclusive service advantages such as:

- Global and local Web sites providing support.
- A global network of Call Centres.
- An extensive network of Sony Ericsson service partners.
- A warranty period. Learn more about the warranty conditions in this User guide.

On *www.sonyericsson.com*, under the support section in the language of your choice, you will find the latest support tools and information, such as software updates, Knowledge base, phone setup and additional help when you require it.

For operator-specific services and features, please contact your network operator for more information.

You can also contact our Call Centres. Use the phone number for the nearest Call Centre in the list below. If your country/region is not represented in the list, please contact your local dealer. (The phone numbers below were correct at the time of going to print. On *www.sonyericsson.com* you can always find the latest updates.)

In the unlikely event that your product needs service please contact the dealer from whom it was purchased, or one of our service partners. Save your original proof of purchase, you will need it if you need to claim warranty.

You will be charged for a call to one of our Call Centres according to national rates, including local taxes, unless the phone number is a toll-free number.

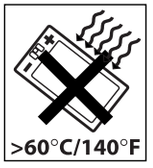
Guidelines for Safe and Efficient Use

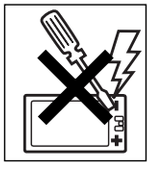
Please follow these guidelines. Failure to do so might entail a potential health risk or product malfunction. If in doubt as to its proper function, have the product checked by a certified service partner before charging or using it.

Recommendations for safe use of our products

- Handle with care and keep in a clean and dust-free place.
- Warning! May explode if disposed of in fire.
- Do not expose your product to liquid or moisture or excess humidity.
- Do not expose to extreme temperatures. Do not expose the battery to temperatures above +60°C (+140°F).



- Do not drop, throw or try to bend your product.
- Do not paint your product.
- Do not paint, attempt to disassemble or modify your product. Only Sony Ericsson authorised personnel should perform service.



- Consult with authorised medical staff and the instructions of the medical device manufacturer before using your product near pacemakers or other medical devices or equipment.
- Discontinue use of electronic devices or disable the radio transmitting functionality of the device where required or requested to do so.
- Do not use where a potentially explosive atmosphere exists.
- Do not place your product or install wireless equipment in the area above an air bag in your car.
- Caution: Cracked or broken displays may create sharp edges or splinters that could be harmful upon contact.
- Do not use your Bluetooth Headset in positions where it is uncomfortable or will be subject to pressure.

CHILDREN

Warning! Keep out of the reach of children. Do not allow children to play with phones or accessories. They could hurt themselves or others. Products may contain small parts that could become detached and create a choking hazard.

Power supply (Charger)

Connect the charger to power sources as marked on the product. Do not use outdoors or in damp areas. Do not alter or subject the cord to damage or stress. Unplug the unit before cleaning it. Never alter the plug. If it does not fit into the outlet, have a proper outlet installed by an electrician. When power supply is connected there is a small drain of power. To avoid this small energy waste, disconnect the power supply when the product is fully charged.

Use of charging devices that are not Sony Ericsson branded may impose increased safety risks.

Battery

New or idle batteries can have short-term reduced capacity. Fully charge the battery before initial use. Charge the battery in temperatures between +5°C (+41°F) and +45°C (+113°F). Do not put the battery into your mouth. Do not let the battery contacts touch another metal object. Use for intended purpose only. Turn off the phone before removing the battery. Only Sony Ericsson service partners should remove or replace the battery of a Bluetooth handsfree. Performance depends on temperatures, signal strength, usage patterns, features selected

This is the Internet version of the User's guide. © Print only for private use.

and voice or data transmissions. Avoid danger by using appropriate Sony Ericsson batteries and chargers.

Personal medical devices

Phones may affect implanted medical equipment. Reduce risk of interference by keeping a minimum distance of 15 cm (6 inches) between the phone and the device. Use the phone at your right ear. Do not carry the phone in your breast pocket. Turn off the phone if you suspect interference. For all medical devices, consult a physician and the manufacturer.

Driving

Some vehicle manufacturers forbid the use of phones in their vehicles unless a handsfree kit with an external antenna supports the installation. Check with your vehicle manufacturer's representative to be sure that your phone or Bluetooth handsfree will not affect the electronic systems in your vehicle. Full attention should be given to driving at all times and local laws and regulations restricting the use of wireless devices while driving must be observed.

GPS/Location based functions

Some products provide GPS/Location based functions. Location determining functionality is provided "As is" and "With all faults". Sony Ericsson does not make any representation or warranty as to the accuracy of such location information.

Use of location-based information by the device may not be uninterrupted or error free and may additionally be dependent on network service availability. Please note that functionality may be reduced or prevented in certain environments such as building interiors or areas adjacent to buildings.

Caution: Do not use GPS functionality in a manner which causes distraction from driving.

Emergency calls

Calls cannot be guaranteed under all conditions. Never rely solely upon phones for essential communications. Calls may not be possible in all areas, on all networks, or when certain network services and/or phone features are used.

Antenna

Use of antenna devices not marketed by Sony Ericsson could damage your phone, reduce performance, and produce SAR levels above the established limits. Do not cover the antenna with your hand as this affects call quality, power levels and can shorten talk and standby times.

Radio frequency (RF) exposure and Specific Absorption Rate (SAR)

When your phone or Bluetooth handsfree is turned on, it emits low levels of radio frequency energy. International safety guidelines have been developed through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure. The guidelines include a safety margin designed to assure the safety of all persons and to account for any variations in measurements.

Specific Absorption Rate (SAR) is used to measure radio frequency energy absorbed by the body when using a phone. The SAR value is determined at the highest certified power level in laboratory conditions, but because the phone is designed to use the minimum power necessary to access the chosen network, the actual SAR level can be well below this value. There is no proof of difference in safety based on difference in SAR value.

Products with radio transmitters sold in the US must be certified by the Federal Communications Commission (FCC). When required, tests are performed when the phone is placed at the ear and when worn on the body. For body-worn operation, the phone has been tested when positioned a

This is the Internet version of the User's guide. © Print only for private use.

minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when properly used with an appropriate Sony Ericsson accessory and worn on the body.

For more information about SAR and radio frequency exposure go to: *www.sonyericsson.com/health*.

Malware

Malware (short for malicious software) is software that can harm your phone or other computers. Malware or harmful applications can include viruses, worms, spyware, and other unwanted programmes. While your device does employ security measures to resist such efforts, Sony Ericsson does not warrant or represent that your device will be impervious to introduction of malware. You can however reduce the risk of malware attacks by using care when downloading content or accepting applications, refraining from opening or responding to messages from unknown sources, using trustworthy services to access the Internet, and only downloading content to your phone from known, reliable sources.

Accessories

Use only Sony Ericsson branded original accessories and certified service partners. Sony Ericsson does not test third-party accessories. Accessories may influence RF Exposure, radio performance, sound loudness, electric safety and other areas. Third-party accessories and parts may pose a risk to your health or safety or decrease performance.

Accessible Solutions/Special Needs

In the US, compatible Sony Ericsson phones may offer compatibility with TTY terminals (with use of necessary accessory). For more information call the Sony Ericsson Special Needs Center on 877 878 1996 (TTY) or 877 207 2056 (voice), or go to *www.sonyericsson-snc.com*.

Disposal of old electrical and electronic equipment

Electronic equipment and batteries should not be included as household waste but should be left at an appropriate collection point for recycling. This helps prevent potential negative consequences for the environment and human health. Check local regulations by contacting your local city office, your household waste disposal service, the shop where you purchased the product or calling a Sony Ericsson Call Center.

Disposing of the battery

Check local regulations or call a Sony Ericsson Call Center for information. Never use municipal waste.

Memory card

If your product comes complete with a removable memory card, it is generally compatible with the phone purchased but may not be compatible with other devices or the capabilities of their memory cards. Check other devices for compatibility before purchase or use. If your product is equipped with a memory card reader, check memory card compatibility before purchase or use.

Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

WARNING:

If your device requires an adapter for insertion into the phone or another device, do not insert the card directly without the required adapter.

This is the Internet version of the User's guide. © Print only for private use.

Precautions on Memory Card Use

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.
- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

Protection of personal information

Erase personal data before disposing of the product. To delete data, perform a master reset. Deleting data from the phone memory does not ensure that it cannot be recovered. Sony Ericsson does not warrant against recovery of information and does not assume responsibility for disclosure of any information even after a master reset.

LOUDNESS WARNING:

Avoid volume levels that may be harmful to your hearing.

End User Licence Agreement

This wireless device, including without limitation any media delivered with the device, (“Device”) contains software owned by Sony Ericsson Mobile Communications AB and its affiliated companies (“Sony Ericsson”) and its third party suppliers and licensors (“Software”).

As user of this Device, Sony Ericsson grants you a non-exclusive, non-transferable, non-assignable licence to use the Software solely in conjunction with the Device on which it is installed and/or delivered with. Nothing herein shall be construed as a sale of the Software to a user of this Device.

You shall not reproduce, modify, distribute, reverse engineer, decompile, otherwise alter or use any other means to discover the source code of the Software or any component of the Software. For avoidance of doubt, you are at all times entitled to transfer all rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided always that such third party agrees in writing to be bound by these rules.

You are granted this licence for a term of the useful life of this Device. You can terminate this licence by transferring all your rights to the Device on which you have received the Software to a third party in writing. If you fail to comply with any of the terms and conditions set out in this licence, it will terminate with immediate effect.

Sony Ericsson and its third party suppliers and licensors are the sole and exclusive owner of and retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the

This is the Internet version of the User's guide. © Print only for private use.

Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

The validity, construction and performance of this licence shall be governed by the laws of Sweden. The foregoing shall apply to the full extent permitted by, when applicable, statutory consumer rights.

Limited Warranty

Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your phone, original accessory delivered with your phone, and/or your mobile computing product (hereinafter referred to as “Product”).

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit *www.sonyericsson.com* to get further information.

Our warranty

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer. This Limited Warranty will last for a period of one (1) year as from the original date of purchase of the Product.

What we will do

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorised distributors or service partners, in the country* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads and other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

Conditions

1. This Limited Warranty is valid only if the original proof of purchase for this Product issued by a Sony Ericsson authorised dealer specifying the date of purchase and serial number**, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.
2. If Sony Ericsson repairs or replaces the Product, the repair for the defect concerned, or the replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.

This is the Internet version of the User's guide. © Print only for private use.

3 This warranty does not cover any failure of the Product due to normal tear and wear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

A rechargeable battery can be charged and discharged more than a hundred times. However, it will eventually wear out – this is not a defect and corresponds to normal wear and tear. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

Minor variations in display brightness and colour may occur between the phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable.

Minor variations in camera image appearance may occur between phones. This is nothing uncommon and is not regarded as a defective camera module.

4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.

5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.

6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.

7 Tampering with any of the seals on the Product will void the warranty.

8 THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer’s statutory rights under applicable legislation in force, nor the consumer’s rights against the dealer arising from their sales / purchase contract.

This is the Internet version of the User's guide. © Print only for private use.

* Geographical scope of the warranty

If you have purchased your Product in a country member of the European Economic Area (EEA) or in Switzerland or the Republic of Turkey, and such Product was intended for sale in the EEA or in Switzerland or in Turkey, you can have your Product serviced in any EEA country or in Switzerland or in Turkey, under the warranty conditions prevailing in the country in which you require servicing, provided that an identical Product is sold in such country by an authorised Sony Ericsson distributor. To find out if your Product is sold in the country you are in, please call the local Sony Ericsson Call Center. Please observe that certain services may not be possible elsewhere than in the country of original purchase, e.g. due to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other countries. Please note in addition that it may sometimes not be possible to repair SIM-locked Products.

** In some countries/regions additional information (such as a valid warranty card) may be requested.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Declaration of Conformity for W760i

We, **Sony Ericsson Mobile Communications AB**
of Nya Vattentornet
SE-221 88 Lund, Sweden
declare under our sole responsibility that our product
Sony Ericsson type AAD-3252041-BV
and in combination with our accessories, to which this declaration relates is in conformity with the appropriate standards EN 301 511:V9.0.2, EN 301 908-1:V2.2.1, EN 301 908-2:V2.2.1, EN 300 328:V1.7.1, EN 300 440-1:V1.7.1, EN300 440-2:V1.1.2, EN 301 489-3:V1.4.1, EN 301 489-7:V1.3.1, EN301 489-17:V1.2.1, EN 301 489-24:V1.3.1, EN 60 950-1:2006 following the provisions of, Radio Equipment and Telecommunication Terminal Equipment directive **1999/5/EC**.

Lund, December 2007

CE 0682

Shoji Nemoto,
Head of Product Business Group GSM/UMTS

We fulfil the requirements of the R&TTE Directive (**1999/5/EC**).
